

MOORE

SOCIAL AMBITION REPORT 2023

SOCIAL AMBITION

Our Commitment to Changing the World

Social Ambition is a fundamental pillar of our strategy and at the heart of Moore Global.

The Moore Global network has always committed to help people thrive – our clients, our people, and the communities they live and work in. Now we are taking this commitment one step further with Social Ambition, our global, network-wide strategy to deliver positive social impact in all that we do.

Every Network Firm has made a “Promise” – a pledge to always be a driving force for positive social impact, led by our young leaders, our actions and together as a global family. We have aligned our 5 key themes with the UN 17 SGD's.

A Summary of our Positive Social Impact During 2023:

Our Natural World

Over 60%* of our Firms have recycling and reduction in single use plastic.
Over 7,500 Trees planted globally as a network.

Equity, Diversity & Inclusion

51% Women representation across the network.
217 Women Partners during 2023 across the network (Additional 122).

Community Care

Over 95%* of our firms support local community charities or volunteer work.
Network wide race to the moon promoting health and wellbeing.

Education, People & Development

Development of the youth by our Global Charity Partners.
98%* of our firms support training and people development.

Quality & Supply Chain

Over 76%* of our Firms have Implemented quality control around sustainability to stakeholders and/or shifted to local suppliers.
