

SUSTAINABLE DEVELOPMENT GOALS

Executive summary

Social Ambition is a fundamental pillar of our strategy and at the heart of Moore Global. We are all committed to helping people thrive – our clients, our people, and the communities they live and work in.

Social Ambition has taken this commitment one step further with our global, network-wide strategy to deliver positive social impact in all that we do.

Every Network Firm has made a “Promise” – a pledge to always be a driving force for positive social impact, led by our young leaders, and together as a global family. We have aligned our 6 key themes with the UN 17 Sustainable Development Goals.

Our natural world

We are committed to combatting climate change with the ambition to achieve net zero by 2030. Firms are assessing and reducing their energy use year on year. We have initiatives for reducing plastic across multiple firms, reducing paper wastage, promoting sustainable commuting to the office and many more. We have also planted over 9,800 Trees in our Moore Forest with our Partners Treedom and an additional 2,000 Trees around the world.

Equity, diversity & inclusion

Our ambition is to achieve EDI, with progress reported and assessed each year. We are committed to helping women to achieve leadership positions across Moore and providing key channels of support. In 2024, Moore firms around the globe proudly recorded 827 Women Partners, reflecting our ongoing commitment to increasing this number in the years ahead.
