

2026 Global Social Impact Report

Executive summary

Social Ambition

is more than a strategy; it is a fundamental pillar of Moore Global. Our goal is clear: to be the world's most respected and socially ambitious network. Through this mission, we have transformed our commitment into a global drive – ensuring that positive social impact is embedded in every action we take.

By aligning our core themes with the UN Sustainable Development Goals (SDGs), we have created a roadmap for meaningful change. This report outlines our progress across six key themes, demonstrating how we are turning our global ambition into a legacy of positive impact.

Our natural world

We are committed to driving positive changes to support combat of climate change. Our firms are on their pathway to achieving Net Zero. Firms are assessing and reducing their energy use year on year. We have initiatives for reducing plastic across multiple firms, reducing paper wastage, transforming energy-friendly machinery and solutions, promoting sustainable commute to the office and much more.

We have planted over 10,680 Trees in our Moore Forest with our Partners Treadm and additional 3,800 Trees around the world.

Equity, diversity & inclusion

Equity, Diversity, and Inclusion are living values at Moore Global. We actively empower women to reach leadership roles across the Moore Network by providing the essential training and support they need to succeed. With inclusive hiring now embedded in over 110 of our firms, our diversity has become the true engine of our growth.

trees across the world

Community care

The heart of Social Ambition is to support our local communities. Social Ambition in action this year through Moore Helping Hands, transformed 3,800 volunteering days into a helping hand for hundreds of thousands of people within our communities. Spanning over 50 plus countries across every global region, this is more than an initiative—it is a cultural legacy of service that continues to redefine our impact on the world.

Education, people & development

Moore Pathways is bridging the gap from potential to opportunity. Our mission is to provide disadvantaged youth with the tools to thrive through training, employment and/or entrepreneurship pathways. Last year, 94 of our firms led the charge of scholarships and student-sponsored programs. Now, we are scaling that impact, ensuring our Moore Global Network provides at least one life-transforming opportunity per firm to those who need it most.

Quality & supply Chain

Driving Social Ambition through operational rigor. We are elevating 'The Moore Way' from a culture to a global best practice. Across our network, we have established robust policies for sustainable purchasing and hiring, creating a more resilient and responsible supply chain for the future.

Poverty

Moore Global Network is taking a stand against poverty now with our 6th key theme. 93% of our firms are already committed to their support. In just one year, 74 firms have launched direct interventions -including 27 provided local food drives, 12 firms engaged in hunger-relief partnerships, and 35 are already committed to poverty reduction programmes.

Conclusion

Our growth as the Moore Global Network is measured by more than just numbers; it is defined by our mission to be the world's most Socially Ambitious network. We are evolving into an organization where Social Ambition is our North Star-guiding every decision and redefining the very nature of positive impact. This is the legacy we lead, the growth we embrace, and the future we are building together.
